About the Program

The 51 credit MSCM program prepares students as skilled community medicine practitioners to work in community clinics, federally qualified health centers, public health departments, healthcare systems, non-governmental organizations, and industries that serve those communities. Students will obtain specific mastery in healthcare problem identification, healthcare problem response, and healthcare systems management.

In the first year, students take courses to build the foundation of their knowledge. All students will be expected to achieve competency in four basic sciences: human bioscience, behavioral science, analytic science, and contextual science.

In the second year, students apply their mastered knowledge to real-life experiences. Students choose two electives to engage in-depth within community medicine practice, and spend a full semester on each rotation. To graduate, each student is required to complete a major capstone project. Students will also obtain applied skills specific to the practice of community medicine: clinical skills, community health skills, consumer skills, and leadership skills.
## What can I do with this degree?

### Habits of mind and hearts

Throughout the MSCM program, students will gain the necessary understanding and build the essential habits of mind and heart of the professional focused on community medicine.

**Habits of mind and heart include:**
- Critical thinking
- Communications
- Creative problem solving
- Interpersonal skills
- Decency
- Resilience
- Maturity

## How to Apply

### Dates and Deadlines

- **Start Terms:** Fall
- **Application Deadline:** March 15 (priority), July 1 (final)

### Application Requirements

An online application form is required that contains questions about your personal and educational background. Additional requirements can be submitted along with your online application or separately:

- Personal Statement
- Resume
- Letter of Recommendation
- Transcripts
- $75 non-refundable application fee

**Admission Interviews:** A phone, Skype, or on-campus interview is a requirement for admission. The Office of Admissions schedules individual interviews after an application is complete.

**Application Review:** The Admissions Committee is made up of faculty and senior administrators who will thoroughly and conscientiously review each application.

**Admitted Students:** Admitted students are required to submit a $250 non-refundable enrollment fee to hold their spot in the program.

**Tuition:** MSCM is a brand new program on the cutting edge of community medicine. Therefore, the first cohort will receive full tuition waivers, and in turn, will help to shape the program and curriculum for future cohorts.
