Waiver of Full Course of Study Requirement: Illness or Medical Conditions

in accordance with 8 C.F.R. § 214.2(f)(5)(iv)

Federal regulations pertaining to the enrollment of F-1 students in the U.S. require that a student be registered for and complete a full course of study per term (12 credit hours). Exceptions to the full-time enrollment requirement are limited by regulations and include medical incapacity. In order to authorize a reduced course load based upon a medical condition, the student must provide current medical documentation from a licensed medical doctor, doctor of osteopathy, or licensed clinical psychologist to substantiate the illness or medical condition. The student must gain new authorization for a drop below full course of study each semester. A student previously authorized to drop below a full course of study due to illness or medical condition for an aggregate of 12 months may not be authorized to reduce course load again while pursuing a course of study at the same program level.

To Be Completed by KGI Student:

I am unable to enroll full-time due to an illness or medical condition. I request a waiver from the full-time enrollment requirement. The illness or medical condition that makes it difficult or impossible for me to attend classes full-time is described by my physician in the provided documentation.

To the Physician/Licensed Clinical Psychologist:

This student has stated that he/she is not able to attend full-time academic courses due to an illness or medical condition. Federal regulations require that the reasons be documented. Please specify whether the student is able to take a reduced course load, indicating proper unit load, or should take no classes at all. Note that pregnancy, in itself, is not considered debilitating and may not be used to excuse attendance, but complications may be.
