Testing for Coronavirus (COVID-19)

In accordance with CDC and LA County Department of Public Health guidance, SHS will administer a Coronavirus laboratory test to any student who has had close contact with a laboratory-confirmed COVID-19 patient within 14 days of symptom onset, or a history of travel from affected geographic areas within 14 days of symptom onset. At this time, the CDC identifies those geographic areas to include China, South Korea, Italy, Japan and Korea. We may expand this criteria-based on changes that are occurring locally and globally and as directed by the CDC.

If you are showing the symptoms identified above and have a history of travel from an affected geographic area, please contact SHS immediately by phone at (909) 621-8222. After hours or weekends, call Campus Safety at (909) 607-2000. We are asking students to call first in order to reduce the risk of infection to others and allow for a phone screening.
