

# Team Master's Projects 2019–2020

Marketing Research – Harvest Solutions & Viral Clearance Products

CRO Business Case for Africa

Automation of Manufacturing Planning and Forecasting

Biosimilars Market Evolution Study

Market Analysis – Assessing Areas of Unmet Needs

ATARA BIO

Master Data Program Analysis

OTC Customer Master Management

Portfolio Management – Incorporating Uncertainty into Portfolio Analyses

Characterization of Media Preparation Tanks with CFD

Catalent Continuous Processing – Phase II

**Genentech**  
*A Member of the Roche Group*

Future Trends in Supply Chain

Industrial Landscaping of Cell Line Development

Service Offerings and Communication Plan

Evaluation of the Point of Care Market for Segments of Interest

IsoQ Therapeutics

Orphan Drug Application and Regulatory Strategy

**Medtronic**

Evaluation of Calibration Cycles and Efficiency Recommendations

Global Product Development, Inflammation & Immunology Therapeutic Area – Phase II

**SAREPTA**  
THERAPEUTICS

Analog Gene Therapy Commercial Site Readiness

**ThermoFisher**  
SCIENTIFIC

Cell Line/Media Parameters and Data Analytics

**UNITY**  
BIOTECHNOLOGY

Commercial Launch Plan – Operations Strategy
